## Summary

---

Highly motivated junior software developer with a passion for bringing ideas to life. Combining both self-taught and university taught programming skills, I'm dedicated to continuously improving my craft and delivering software solutions that exceed expectations.

## Education and Certificates

---

Mangosuthu University of Technology: 2024 current (3<sup>rd</sup> year)

Mtn App academy NQF Level 5: 2022 (6 months)

Coursera Programming foundations with JavaScript:2022(1month)

Coursera Python for everybody specialization: 2021 (2 months)

Mtubatuba High School: 2015 (5 years)

## Experience

---

### Projects

- [GitHub-Profile-Builder](#): An open-source project that helps developers build better GitHub profiles.
- [Amazon clone](#): A full-stack e-commerce website with server-side rendering, webhook integration, and payment processing.
- [Best brightness](#): developed a dynamic web application using c-sharp and MySQL database, enabling real time data retrieval and manipulation.
- [To-do-app](#): Demonstrated my passion for learning and growth by building a to-do list application using only ChatGPT's expert guidance and instructions.
- For more information do check out the BuildDiary.md in these projects to get a deeper understand of my building process.

### MTN Business App Academy

- Built numerous mobile apps with different tech stacks, implementing material design.
- Learned to build 100% responsive apps using React Native.
- Completed in December 2022.
